LANGUAGE

- Indonesian - Native
- English - Professional

EDUCATION

- Bachelor Of Electrical Engineering (S.T) -
Universitas Negeri Medan - 2019–2024
GPA: 3.38
- Computer and Networking Engineering -
Senior High School - SMKS Indonesia
Membangun Taruna Marelان – 2015 -
2018

TUTOR/LAB ASSISTANT

Assistant Lab at Department of Electrical
Engineering – Universitas Negeri Medan -
2023

COURSES & CERTIFICATE

- TOEFL ITP Score: 583 – ETS - Mar 2025
- EF SET Certificate – Score: C1
Advanced – English First – Dec 2025
- Circuit Design in AutoCAD – Udemy -
Apr 2025
- Electrical OHS – K3 - Mar 2025
- Artificial Intelligence Super Class
Bootcamp – Rubythalib.ai - Jun–Aug
2025
- Fullstack Developer (On-going) –
Purwadhika - Nov 2025
- Cybersecurity Foundations – LinkedIn –
Jan 2026
- Atlassian IT Service Management
(ITSM) Professional Certificate –
Atlassian – Jan 2026
- Zendesk Customer Service Professional
Certificate – Zendesk – Dec 2025
- Learning ITIL – LinkedIn – Jan 2026
- Putting ITIL Into Practice Applying ITIL 4
Foundation Concepts – LinkedIn
Learning – Dec 2025
- IT Service Desk Service Management –
LinkedIn Learning – Dec 2025

PROFESSIONAL SUMMARY

Detail-oriented Electrical Engineering graduate with hands-on experience in IT Support, Helpdesk operations, electrical maintenance, and technical troubleshooting across office and operational environments. Skilled in diagnosing hardware and software issues, workstation setup, printer support, IT asset management, basic networking, and end-user support, with training in ITSM tools such as Zendesk and Salesforce.

Additionally, completed intensive training and on-the-job training in Full-Stack Web Development at Purwadhika, gaining practical experience in building web applications using modern technologies such as JavaScript, React, Node.js, and REST APIs. Experienced in developing, testing, and deploying web-based solutions with a strong understanding of both front-end and back-end development.

Strong problem-solving, analytical thinking, and time management skills, with the ability to learn quickly, work independently, and collaborate effectively with cross-functional teams to deliver reliable technical solutions and maintain service continuity.

CORE SKILLS

IT Support & Helpdesk:

Troubleshooting, Desktop Support, Workstation Setup, IT Asset Management, Networking, Windows OS, Linux OS, MacOs, Docker, Hyper-V, CCTV, Ticketing (Zendesk, Salesforce), Printer & Copier Support, Office365, Remote desktop tools, Google workspace.

Programming:

HTML, CSS, FIGMA, Dart Flutter, Python, JQuery, JavaScript, TypeScript, SQL, MySql, PostgreSQL, Supabase, NeonDB, Cloudinary, Prisma, Vite, Express, Node.js, React, REST API, Postman, Git, Github, Katalon.

Electrical Engineering:

Power System, UPS Installation & Maintenance, Electrical Equipment Repair, High/Low Voltage Systems, Generator Maintenance, Transformer Inspection, Motor Testing, Vibration Testing, Winding Resistance Measurement, PLC, IoT (Arduino), ETAP.

AI Skills:

Prompting, Machine learning, AI Agent.

General Technical Skills:

Root Cause Analysis, Incident Management, Network Basics, Embedded Systems, MS Office, Documentation & Reporting.

Tools:

ETAP, AutoCAD, Thermovision, Multimeter, PLC, Arduino, MS Office, Photoshop, CorelDraw, Illustrator, Zendesk, Salesforce, DBeaver, JIRA, Slack, ChatGPT, Gemini, DeepSeek, Grok, Claude, Canva, RDP, Docker, HyperV, AnyDesk, TeamViewer.

WORK EXPERIENCE

- PRODUCTION PLANNING & INVENTORY CONTROL (PPIC)**
PT. CHAROEN POKPHAND – PADANG – JUNE 2026 TO JULY 2026
- Prepared and monitored production plans based on requirements, inventory, and material availability.
 - Coordinated with Production, Warehouse, Purchasing, and related departments to ensure schedules were executed.
 - Monitored raw material and finished goods inventory to maintain sufficient stock levels.
 - Updated production and inventory data using Microsoft Excel and internal systems.
 - Monitored production progress against planned schedules.
 - Identified production and inventory data discrepancies and coordinated resolutions.
 - Prepared reports on production planning, material requirements, and inventory status.
 - Assisted in ensuring production activities followed schedules and targets.

- IT Service Desk Monitoring and Metrics Fundamentals - LinkedIn Learning – Dec 2025
- IT Service Management Foundations Problem Management - LinkedIn Learning – Dec 2025
- IT Service Management Foundations Tools 2021- LinkedIn Learning – Dec 2025
- Customer Service Foundations - LinkedIn Learning – Dec 2025
- Customer Service: Problem-Solving and Troubleshooting - LinkedIn Learning – Dec 2025
- Learning Cisco Certified Network Associate (CCNA) v1.1 (200-301) Cert Prep – LinkedIn – Jan 2026
- Introduction to Conversational AI – LinkedIn – Jan 2026

GENERAL AFFAIR STAFF

ERHA CLINIC INDONESIA – MEDAN – JULY 2025 TO AUG 2025

- a brief period, focusing on supporting daily operations and administrative tasks
- Responsibilities included managing office supplies, coordinating maintenance services, and assisting with staff requests.
- Troubleshoot and repaired office electrical equipment, workstations, and printers, reducing downtime.
- Coordinated maintenance and repair services, ensuring a functional working environment.
- Managed IT and electrical supplies to support continuous operations.
- Responsible to support end-users with basic workstation setup and configuration.
- Supported logistical and technical requirements for internal events.

FREELANCER – ELECTRICAL & IT TECHNICIAN

SELF EMPLOYEE – MEDAN – MAR 2023 TO JULY 2025

- Installed, maintained, and repaired electrical and low-voltage systems for clients.
- Set up and configured workstations, printers, and office devices.
- Provided IT troubleshooting and on-site technical support.
- Supported installation and configuration of Power Systems & UPS.
- Delivered desktop-level troubleshooting for hardware/software issues.

TECHNICAL ASSISTANT (INTERNSHIP)

PT. PLN NUSANTARA POWER UPDK BELAWAN – MEDAN – MAR 2023 TO APR 2023

- Focusing on maintenance and repair tasks for electrical equipment.
- Supported maintenance of generators: oil leak repair and carbon brush replacement.
- Performed vibration testing on active motors to detect early failures.
- I handled winding resistance measurement for motor diagnostics.
- Responsible to assist in motor bearing replacement to improve operational lifespan.
- Responsible for transformer inspections (20/150 kV), including battery voltage testing.

TECHNICAL ASSISTANT (INTERNSHIP)

PT. PLN ULP LABUHAN – MEDAN – MAR 2021 TO APR 2021

- In charge of maintaining the electric distribution network. Focused on ensuring the reliability of network poles through routine maintenance.
 - Responsible for routine maintenance on electrical distribution poles.
 - Inspected 20 kV cable connections using Thermovision to prevent outages.
 - Responsible for installation and replacement of low-voltage transformer panels.
 - Supported replacement of damaged FCO components to ensure safety.
-
